

## Connecting Your Laptop to a Wireless Network

- Power on your laptop.
- Press the WiFi button on your laptop to turn WiFi on.
  - Blue light indicates WiFi is on.

- Place a check mark in the Workstation Only box at the Novell login screen.
- Type in Username and Password just as you would at school.
- Once you are at the computer desktop:
  - Right click Internet Explorer.
  - Left click Properties.
  - Click on the Connections Tab.
  - Click on LAN Settings.
  - Uncheck Use a Proxy Server...
  - Check Automatically detect settings.
- Your laptop should automatically detect available wireless networks.
  - Choose your (or appropriate) wireless network.
  - Be sure you are selecting a legitimate wireless network.

## Connecting to the BCS Novell Network

- Reconnect your laptop.
- Uncheck Workstation Only at the Novell login screen.
- Log into the network as you normally would.
- Once you are at the computer desktop:
  - Right click Internet Explorer.
  - Left click Properties.
  - Click on the Connections Tab.
  - Click on LAN Settings.
  - Uncheck Automatically detect settings.
